Vitamin E	62 IU/lb. Min.

INGREDIENTS

Calcium Carbonate, Wheat Middlings, Soybean Hulls, Salt, Cane Molasses, Dehydrated Alfalfa Meal, Potassium Chloride, Choice White Grease, Sodium Selenite, Manganese Sulfate, Zinc Sulfate, Ferrous Sulfate, Copper Sulfate, Cobalt Sulfate, Calcium Iodate, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement, Thiamine Mononitrate, Ethoxyquin Preservative, Mineral Oil.

FEEDING DIRECTIONS

Feed FEEDLOT CP SUPPLEMENT RU625 to cattle being fed in confinement for slaughter at the rate of 8/10 of a pound per head per day to provide 250 mg of Monensin daily. Feed continuously to feedlot cattle to supplement ethanol by-product based diets. Consult your PEET'S Representative for ration balancing services and medicated options available.

CAUTION: Do not allow horses or other equines access to feed containing Monensin. Ingestion of Monensin by equines has been fatal. Monensin-medicated cattle feed is safe for use in cattle only. Do not feed to lactating goats. Consumption by unapproved species may result in toxic reactions. Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average daily gains may result. If feed refusals containing Monensin are fed to other groups of cattle, the concentration of Monensin in the refusals and the amount of refusals fed should be taken into consideration to prevent Monensin overdosing.

WARNING: A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal.
