Vitamin E	62 IU/lb. Min.

INGREDIENTS

Calcium Carbonate, Wheat Middlings, Soybean Hulls, Salt, Cane Molasses, Potassium Chloride, Dehydrated Alfalfa Meal, Choice White Grease, Sodium Selenite, Manganese Sulfate, Zinc Sulfate, Ferrous Sulfate, Copper Sulfate, Cobalt Sulfate, Calcium Iodate, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement, Thiamine Mononitrate, Ethoxyquin Preservative, Mineral Oil.

MIXING & FEEDING DIRECTIONS

Feed at the rate of **8/10** of a pound per head per day to heifers fed in confinement for slaughter to provide 300 mg of Lasalocid and 0.4 mg of Melengestrol Acetate per head per day. Mix into a TMR and feed continuously to heifers to supplement ethanol by-product based diets. Consult your **PEET'S** Representative for ration balancing services and medicated options available.

CAUTION: The safety of Lasalocid for use in unapproved species has not been established. Do not allow horses or other equines access to feeds containing Lasalocid as ingestion may be fatal. Mix thoroughly with grain and/or roughage prior to feeding. Feeding undiluted or mixing errors may result in an excess Lasalocid concentration that could be fatal to cattle and sheep. Only for use in heifers being fed in confinement for slaughter.

WARNING: A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal.
