FEEDING DIRECTIONS

Mix TOP LAMB 32 D180 with grain of choice as directed below and feed at a rate to provide 22.7 mg per 100 pounds of bodyweight of Decoquinate daily for the prevention of coccidiosis in young sheep. Offer good quality hay and fresh clean water. Feed for at least 28 days during periods of exposure to coccidiosis or when experience indicates that it is likely to be a hazard. Consult your **PEET'S** Representative for specific rations and additional information. **This product contains no additional copper.** Copper levels are from natural sources.
